

# Green Tea-70

*High Concentration EGCG*

## DESCRIPTION

Green Tea-70 is a water soluble antioxidant that is 100 times more effective than Vitamin C and 25 times better than Vitamin E as a dietary supplement to support proper immune system function.

## FUNCTIONS

Green Tea comes from the tea plant, *Camellia sinensis*, which is an excellent source of potent polyphenols (bioflavonoids with powerful antioxidant properties). The four primary polyphenols in Green Tea are epicatechin, epicatechin gallate, epigallocatechin and epigallocatechin-3-gallate (EGCG). Research has identified EGCG as the most active agent in Green Tea. Green Tea-70 is a unique formula in that it contains the highest percentage of EGCG currently in the market. Each 500mg capsule of Green Tea-70 is standardized to contain 70% or 350 mg of EGCG per 500mg capsule. Most other products provide 35-40% EGCG.

EGCG is an important nutrient that supports a wide range of systems in the body. EGCG supports liver health as well as detoxification and elimination functions. Green Tea may increase the activity of antioxidants and detoxifying enzymes within the small intestine, liver and lungs. EGCG helps to support cholesterol levels within normal ranges and balances the ratios of HDL and LDL cholesterol. Research has shown that EGCG supports the activity of B-Cells to produce higher antibody response and immune activity of the T-Cells and macrophages. And numerous studies have demonstrated the ability of EGCG to prevent the proliferation and growth of virus cells.

EGCG is shown to support skin health by recycling aged cells and supporting new cell growth. It offers antioxidant support against the free radicals that attack collagen (the skin's structural protein) and decreases the activity of the enzyme that breaks down collagen to help keep skin firm and healthy. EGCG may also support metabolism due to its thermogenic effect and helps to maintain normal blood insulin levels. EGCG supports the burning of fats and helps control appetite, which helps to support weight loss and weight management.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

## INDICATIONS

Green Tea-70 may be a useful dietary adjunct for individuals wishing to maximize proper immune system function.

## FORMULA (WW #10320)

### 1 Capsule Contains:

Green Tea Leaf Extract..... 500mg  
Yielding:  
Epigallo-catechin-3-gallate (EGCG)..... 350 mg

Other ingredients: Vegetable cellulose (capsule), microcrystalline cellulose.

## SUGGESTED USE

Adults take 1 capsule 1 to 2 times daily, or as directed by your healthcare practitioner.

## SIDE EFFECTS

Warning: If you are pregnant or nursing, consult your healthcare practitioner before taking this product.

## STORAGE

Store in a cool, dry place, away from direct sunlight. Keep out of reach of children.
